

# Peggy Griffin

Aspiring Full Stack Developer

peggysuegriffin@gmail.com  
720-316-7548

## goals

### As a Ruby on Rails developer,

I have six months of intensive training in programming with emphasis in Ruby on Rails, pair programming, agile and test-driven development. Additional independent study includes 10 years Photoshop experience, JavaScript, Python and Web Design. I'm dedicated to becoming a better programmer. At this early stage in my development career, I want to continue an immersive learning experience with an organization that promotes further growth and learning.
